## Creating Opportunities UC Camping – Interactive EdVentures

As part of the Uniting Church, Interactive EdVentures offers something special in program facilitation. Interactive EdVentures is committed to an ethos of integrity, inclusion, respect for others, openness and honesty. Applying this ethos to everything we do, Interactive EdVentures provides unique experiences.

### To learn and grow together

Interactive EdVentures provides a fun and exciting way to enhance your team building program. Through our experiential programs individuals and teams can reach their full potential.

At Interactive EdVentures we provide innovative experiential activities. We work with you to tailor programs that meet your objectives. We facilitate opportunities that allow individuals to explore ways to grow and develop.

Our programs create opportunities for individuals and groups to explore, discover and reconnect with themselves, each other, the environment and faith.

## Where and When

Wherever you are located Interactive EdVentures can service your team work needs.

From the UCC-Interactive EdVentures office in Melbourne CBD, it is a short 30 minute trip to the main low and high ropes course site in Doncaster. Alternatively we can come to your venue or use one of our UC Camping sites.

We can provide both indoor and outdoor programs all year round. We specialise in school programs linked to other areas of the curriculum.

## How does Team Building help?

Our experiential approach enables participants to explore group dynamics and their role within the team. Participants can reflect on their role as a team member and identify strategies that may lead to improved teamwork.

Our programs empower participants to take responsibility for their own actions. This builds a greater commitment to becoming a positive team member. By working together trust and effective communication are enhanced.
